

EMEA Invoice Processing Flowchart – how to check why my suppliers invoice hasn't been paid yet

This document contains a flowchart outlining the steps for processing supplier invoices through Accounts Payable (AP). Please note that **payment runs are weekly**, therefore if you're performing troubleshooting steps on a Monday or Tuesday, that should be sufficient to make the payment run that clears on the Friday of that week. Any changes made to PO's or invoices after Tuesday won't be paid until the following week's payment run, if due.
